Lind Bridge car park to be closed for Bairnsdale pipeline works

A car parking area adjacent to Lind Bridge in Wy Yung will be closed to the public for one month from Sunday 17 February, as East Gippsland Water commences preliminary work to replace a key section of the main water supply pipeline into Bairnsdale.

The parking area is located to the south west side of the bridge, at the corner of Pound Swamp Hill Rd and Wy Yung Rd.

Alternative parking still available nearby includes:

- 'The Dog Hole', off Riverine Street
- at the north east side of Lind Bridge, near to Wy Yung Sports Ground

An ageing 350 metre section of steel water main is being replaced, which lies close to Lind Bridge and includes 70 metres running across the bed of the Mitchell River. Its replacement has been fast-tracked to ensure a reliable, secure drinking water supply into town is maintained for the long-term future.

East Gippsland Water has appointed Bairnsdale-based BPR Trenching and Boring to undertake the project, which is due to be completed this coming winter.

For any enquiries about the work please contact East Gippsland Water on 1800 671 841.
