Water main replacement work in Bruthen

Work is due to commence on Monday 24 February to replace approximately 840 metres of ageing water main alongside the Great Alpine Road in Bruthen, between Main Street and Sandy Street.

This work is being carried out on behalf of East Gippsland Water by contractors AlbCon and will help ensure the long-term reliability and efficiency of the water supply network in this part of Bruthen well into the future.

Replacing the water main is expected to take approximately 10 weeks to complete.

Every effort will be made to minimise inconvenience to customers, and affected householders in the immediate vicinity of the work are being contacted by letter. Local traffic diversions may be necessary in the immediate area as part of the work, but will not affect the Great Alpine Road itself.
