Paynesville pump station upgrade

Work is due to start at the end of the month on a \$300,000 upgrade to one of East Gippsland Water's key sewage pump stations, in Backwater Court, Paynesville.

The work, which should be completed by the end of July, involves replacing the valves and much of the pipework inside the building and improving access to the pump machinery to make maintenance easier.

This project will help ensure the pump station and associated sewer network continue to provide reliable service for the surrounding community well into the future.

For much of the duration of the work it will be necessary to restrict public access to Backwater Court for safety reasons. We apologise in advance for any inconvenience.

Affected householders in the immediate vicinity have been notified.

For any queries about the project please call East Gippsland Water's customer service team on 1800 671 841.
