

MOBILE DRINKING WATER TRAILER Event Map

Please use this page to provide us with a map of where you would specifically like the mobile drinking water trailer to be placed at your event. Please include the following:

- ✓ Access point to event site and road name.
- ✓ Preferred site location for trailer.
- ✓ The closest connection point to the water main.
- ✓ The closest drainage point.
- ✓ The closest power supply point (if required).

Note: Wherever possible, the connection and drainage points should be located under the trailer to avoid supply and discharge pipes causing a safety hazard.

Note: This is not a confirmed booking. EGW will confirm bookings in writing at a later date.
