Designs & Accompanying Submissions

Please attach the following documentation to accompany this form:

Description	Applicable (Y/N)
Overall servicing plan (if applicable i.e. multistage developments)	
Design plans (pdf)	
Design specifications (if applicable i.e. high risk/ multistage developments)	
Plan of Subdivision (if applicable)	
Creation of Easement Plans (if applicable)	
Cost Estimates – Shared assets only (design, construction, superintending)	

Other Considerations

Please identify any of the following considerations that may be applicable to the proposed development.

Description	Applicable (Y/N)
Are any assets/extensions proposed to be located in future private lots?	
Are any assets/works proposed to be located in third party land?	
Have third parties consented in writing to works or easements on their land?	
Are easements required?	
Are you requesting a non-standard connection?	
Has previous servicing advice been provided by EGW?	
Do the proposed works require any structures to encroach on existing an EGW asset or easement?	
Has the designer completed and documented their own safety in design (or equivalent) assessment?	

Declared deviations seeking dispensation

The Accredited Consultant shall provide details of any design departures from the relevant East Gippsland Water/ WSAA/ MRWA standards for review and consideration. Each design departure will be considered on a case by case basis by East Gippsland Water as part of the design review process. It should be noted that East Gippsland Water is not obligated to accept any deviations.

No.1	Description	Reference Clause / Drawing

4	< Insert >	

It is the responsibility of the Accredited Consultant, that all designs have been completed under the supervision and verified by an appropriately qualified engineer that holds current registration under the Professional Engineers Registration Act 2019. By signing and submitting this form, the consultant is declaring that:

- The design has been verified by a registered engineer of the relevant discipline under the Professional Engineers Registration Act 2019.
- The design accords with East Gippsland Water's adopted standards (i.e. manuals, bulletins etc.), the relevant Water Services Association of Australia (WSAA) and Melbourne Retail Water Association (MRWA) codes and standards.
- The design has undergone a documented Safety in Design (or equivalent) assessment.
- The designer has declared any/all deviations from the relevant requirements/standards for East Gippsland Water's consideration for dispensation.

Signature	

Notes: EGW reserves the right to seek further evidence to support this declaration.

Upon execution of this form, East Gippsland Water will assess the design drawings and application and:

- Provide a Developer Works Agreement offer for the consideration and signing of the Developer.
- Commence the design audit process.

Works shall not commence until a Developer Works Agreement has been fully executed, and the design has been approved by East Gippsland Water. Any letter of approval or stamping of any design by East Gippsland Water in no way endorses, verifies or warrants the quality or appropriateness of that design.

Subdivisions of 2 lots or less, that do not require significant network extensions will not require a Developer Works Agreement, but will be subject to the terms of the East Gippsland Water Land Development Manual.

For any assistance in relation to this form, please contact the District Growth Team by calling (03) 5150 4444, or emailing Developerworks@egwater.vic.gov.au .
